I offer premium DJ services at a flat rate of 3000€ for up to 5 hours of non-stop music and entertainment in a single day. This package includes everything you need for an unforgettable event, from the initial consultation to the final song of the night. In addition, I require a room to sleep after the event, and the speakers (and any other equipment, such as lighting) should be set up at the location. If a DJ deck is available at the venue, please provide details in advance; otherwise, I will bring my own. Please note that travel costs to the event location should also be covered as part of the arrangement.
